

Foundation Clusters for Engineers (FCEN) are special groupings of courses offered for the students in engineering enrolled in the first year of the curricula. The intent of the cluster offerings is to aid the students in proceeding toward their degree. Studies conducted on the Texas A&M University campus, as well as at other leading institutions, have found that:

- students in clustered courses are retained in engineering better than the non-clustered students
- students in clustered sections tend to form a more cohesive learning community that results in improved abilities with the material in the courses
- students in the clustered courses tend to make more rapid progress toward degree completion

FCEN offerings are only presently available only to majors following Track A. These include:

FCEN 111 sections 801-821 include ENGR 111, MATH 151 & PHYS 218

FCEN 111 sections 801-821 are for

AERO, AGEN, BMEN, BSEN, CVEN, INEN, MEEN, NUEN, OCEN, RHEN, ENTC majors only

FCEN 112 sections 801-821 include ENGR 111, MATH 151 & PHYS 218

FCEN 112 sections 801-821 are for

AERO, AGEN, BMEN, BSEN, CVEN, INEN, MEEN, NUEN, OCEN, RHEN, ENTC majors only

To enroll in any of these clusters you must register for the FCEN course number and section number, NOT the ENGR, MATH, PHYS, or CHEM course numbers. When you register for a FCEN course and section you will automatically be placed in the appropriate courses included in that cluster. You may not drop a cluster set via the computer.

To drop a clustered set of courses you must contact the Engineering Academic Programs Office in Rm 204 of the Zachry Engineering Center, Phone: 979-845-7200, Hours: 8:00 am - 5:00 pm. The clustered courses must all be taken as a set. To request an exception, complete a form available in Zachry 204 which explains why you do not wish to be enrolled in the entire set. Exceptions can be granted only by the Associate Dean of Engineering. Students are responsible for checking the status of their completion of the prerequisite courses for any of the clustered courses.
